A Study In Economics Not Found In Harvard U. Primers

The word "profit" is probably the best measuring stick in the world today for determining whether we exist in a democracy with the benefits of free enterprise or under the smothering philosophy of communism.

Profit, rather than prices, is what the President was attacking in his fizz with Steelman Roger Blough. If the President had been thinking of "prices" as opposed to "profits" he would have nailed the lid as firmly on production costs as he did on the product. He did not check the cost of production by demanding that wages be leveled off. He didn't hold back the cost of production by giving tax relief by way of reducing the Administration's unconscionable financial waste. His tantrum was focused on one thing only - profit!

Is profit as important to our future as we are making it appear? Let's see!

Profit is the lifeline of business. When profit is not forthcoming, expenses must be reduced. Major expense item of most businesses is payroll. If economics cannot stem the tide of financial loss, the business fails. A business failure destroys just that much tax base. Jobs once there are not there to produce withholding taxes. Thus the government has less income because it has destroyed its sources by its own action. In order to sustain its national and world programs, government will continue to spend. Failure of U. S. citizens to produce tax money to pay for these programs produces a condition known as deficit spending. More outgo than income produces "failure" in business but in government produces "inflation."

Picking away at profits until they disappear and employment falters has the combined effect of losing taxes from the

C of C To Study L.G. Residential Lighting

The Lemon Grove chamber of commerce Tuesday under the new presidency of Bob Vaught announced that a program of supplying street lighting for residential Lemon Grove would be studied soon after the hearing next week on a street lighting district for the L.G. business district.

Hearing on business district lighting is scheduled before the board of supervisors May 8, according to Ed Koester, chamber manager.

Koester told the chamber board that lighting could be supplied to the residential district for approximately 30c for each $100 assessed valuation or about $15 per home a year.

The board voted to add an honorary director's position and named George Scott, former director who had contributed considerable financial aid to the chamber, to be the first to fill such a position.

The following committees and chairmen were named:

Welcome - Mil Austin
Legal - V. J. Dorman
Publicity - Bob Dryden
Schools - Forrest Baxter
Industrial - Norman Lighthart

L. G. Trustees Restore Summer School Program

'Impact Funds' Windfall Help Preserve Plans

Trustees restored Lemon Grove summer school to this year's schedule at a special board meeting Monday night. A room-filling crowd of interested parents aided the board in coming to the decision but the development that made the restoration possible was a mid-week communique from U.S. Rep. James Utt informing the board that federal impact aid for the current period had been increased from 82 per cent to 91 per cent. This amounts to approximately $10,000, according to Byron Netzley, school superintendent and covers the district's share of the $28,000 summer school cost bill. The rest is borne by the state.

Federal impact funds are awarded to school districts where the number of persons employed on federal projects or property are higher than the average. The increase in these funds was not anticipated by the school board or school administration.

Summer school was one of 13 programs studied for cutback following the failure of the $90,000 school district tax override issue early last month.

"We were simply $90,000 short of meeting anticipated budgeted requirements when the issue failed to pass," Byron Netzley, district superintendent said.

THREE PROGRAMS GONE

Three programs already dropped are the summer recreation program; the Spanish instruction classes for next year, and the library at Palm junior high school. Eight other programs will be decided upon at subsequent meetings but the summer school project claimed priority because personnel had to be acquired and students properly scheduled in time to avert conflict of dates.

At the Monday meeting trustees said the unexpected federal funds windfall made the summer school decision possible. To offset other budgetary expenses they agreed to again cut into the reserve fund which will be reduced to $50,000, a level which administrators called "dangerously low."

Trustees also expressed belief that the public would approve an override election when presented again, indicating that such an election would be scheduled next year.

Some of the programs that may be affected however include:

pupil transportation;
capital outlay for ground and building improvements;
elimination of requests for additional personnel;

Grow-Getters To Report Soon

Earl Warren, president of the L.G. Grow-Getters said this week that committee functions were being carried out and the promotional plan would soon be revealed.

Money-raising is the major objective right now, Warren said.

He also reported that the new $18,000 street sweeping machine that had been contracted for had broken down. It should be back in operation next week, he said.

A meeting at which crystalized plans will be announced is planned soon, he said.

The Grow-Getters is comprised of L.G. business and professional people.

Another judge, Vernon Gordig called the Mt. Miguel musical groups "a wonderful tribute to your school, director and community."

Appearing as soloist with the concert band on the Sunday program will be Daniel Magnusson, concert clarinetist well-known in this area. He is first clarinetist with the San Diego symphony orchestra, and is a graduate of Julliard Conservatory.

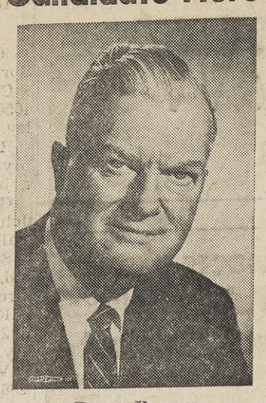
GOP Controller Candidate Here



Bruce Reagan

Bruce V. Reagan, assemblyman from the 47th District, is candidate for State Controller and has been campaigning in San Diego during the past week.

Reagan, a Republican, told his campaign workers that more commerce and industry must be attracted by S.D. to offset the shrinkage in employment. The chief fiscal officer of the state would have considerable influence in encouraging proper budget and tax procedures to improve the business climate to the point where industry and commerce could be brought to this part of the state, he said.

BEWARE OF MAN'S BEST FRIEND!
HE'S ONLY HUMAN

A news release from the San Diego Health Assn. advises people to beware of dogs, pointing out that 600,000 Americans are bitten annually. The release points out that many of the canine attacks could have been avoided. The following suggestions are made to keep people from getting bitten:

Don't tease the dog, he doesn't enjoy it.

Don't pull a dog's tail or ears, or poke fingers into his eyes.

Never try to take food from a dog.

Never interfere in a dog fight.

Don't waken a dog suddenly.

Don't run or bicycle with a dog if it gets him excited.

Be wary of strange dogs.

Although these suggestions are valid enough, they don't seem altogether necessary. Nevertheless, since this list was compiled maybe a little more advice is in order. Here are suggestions I'd like to add to the list just to make sure people don't get bitten:

Don't kick the dog, he doesn't enjoy it.

Don't set off firecrackers by the dog, he doesn't enjoy it.

Don't throw rocks, tin-cans, old dishes, motor parts, new dishes or other things at the dog, he doesn't enjoy it.

Don't twoink a dog's nose or pull his leg, he doesn't enjoy it.

Don't throw the dog out of a boat 30 miles offshore, he doesn't enjoy it.

If you follow the above advice, you won't get bitten by a dog. But you may get scratched by a cat.

Child's Cry Saves Mother From More Serious Injury

A momentary mental aberration on the part of John William Clowers, 28, of Chula Vista, nearly resulted in the murder of his wife in Spring Valley.

According to Wylma Rae Clowers, 311 Parkbrook st., S.V. who had divorced her husband six weeks ago, Clowers came into her home after midnight while she was asleep and began to beat her on the head with a blunt instrument.

The noise awakened the couple's 5-year-old daughter who began to call for "mommy." When Clowers heard the cries he fled to the living room where Mrs. Clowers found him getting into his levis and shirt.

Later, Clowers was picked up by the C.V. Police dept. after his estranged wife had notified the sheriff's dept. of the attack. He told police he was upset by the divorce proceedings and he didn't know why he did it. The little one calling "mommy" brought him to his senses, he said.

"VICTORY OVER SIN"

Good Friday and Easter dealt with the problem of sin in such a manner that it is completely settled. Sin is an offense to God and it breaks man's relationship with God. Christ's death paid the price demanded by the law. The Risen Christ presented His blood as the payment for our sins and He is now at the Father's right to plead our case.

MOST OF STATE FUND IS FOR EDUCATION SAYS RODRIGUEZ

"California's biggest business is education, almost 60 per cent of the public fund goes for this purpose," Armando Rodriguez, the endorsed Democratic candidate in the 77th Assembly District, said this week.

"The use of this money needs coordination. We need common goals and objectives, and these goals must be workable," Rodriguez said. "To make our money do the job, we must eliminate duplication such as state university, state college, and junior college competition. Their aims are similar, why should their programs set up barriers to each other."

Rodriguez is vice principal of Gompers Junior High. He has been a teacher for 14 years.

SERMON ON REALITY STRESSES POWER OF WORD OF GOD

The power and permanance of the Word of God will be stressed at all Christian Science services Sunday in a Lesson-Sermon on the subject of "Reality."

"Oh that men would praise the Lord for his goodness, and for his wonderful works to the children of men!" exclaims the Psalmist in a Scriptural selection. He continues, "He brought them out of darkness and the shadow of death, and brake their bands in sunder. . . . He sent his word, and healed them, and delivered them from their destructions" (107:8, 14, 20).

Mary Baker Eddy declares in "Science and Health with Key to the Scriptures," "Reality is spiritual, harmonious, immutable, immortal, divine, eternal. Nothing unspiritual can be real, harmonious, or eternal." "Divine Science, the Word of God, saith to the darkness upon the face of error, 'God is All-in-all,' and the light of ever-present Love illumines the universe." (pp 335, 503).

Patio time is here again! For family "cook outs" and entertaining this year, why don't you try meals that can be cooked outdoors with portable elecrtic appliances. Consider for instance a Gourmet Beef Stroganoff that can be cooked with ease outdoors in an electric saucepan. Sounds like fun, doesn't it?

"All About Patio Cooking" with small appliances will be the subject of my cooking school this month. It will be presented **Tuesday, May 8** from 12:30 to 2 p.m., and again **Tuesday, May 22** from 10 to 11:30 a.m. in the comfortable auditorium of San Diego Gas & Electric Company's Eastern District Office, at 104 North Johnson Street in El Cajon.

We will talk about outdoor preparation of lunch, dinner and snacks — all with small appliances. We'll bake a Fresh Strawberry Cake in an electric skillet; a Marinated Cross Rib Roast in the rotisserie oven, and make Bleu Cheese Bites in the toaster oven.

We'll demonstrate party grills, blenders, handmixers, and show you how to be a real creative outdoor cook. Join us won't you. There will be free door prizes, and of course, admission is free.

AUDIENCE TAKES PART
The decision on summer school came after more than an hour of discussion in which the audience participated. Harry Weisgerber, president of the L.G. Teachers Assn. said that a poll of his group showed that teachers preferred dropping summer school if the next steps appeared to be dropping teaching positions and stopping salary increments.
Trustees Ray Lange said if the board dropped the summer program it would show local residents the effect of an insufficient budget. "I can't bring myself to vote to do this because it would appear to be a punitive action relating to the failure of the election."
Trustee Bert Cosby said the board should take a gamble on the successful (override) election later to back up programs deemed vital by the board.
NOT FOR FAILURES
Louis Poluzzi, teacher at Junior high said that summer school in the district was no longer a catchall for failures. "If the program is limited only to remedial classes as the budget suggests, summer school will carry failure reputation as it did years ago," he pointed out.
Al Aron, a VLM parent, made a plea for summer school. The issue (override) failed because parents did not understand the impact of the cut-back program, he said. He suggested a public donation program to cover the budget shortage. The board said it was not legal to do this.
Finally, the board voted unanimously to re-instate the summer program and not to disturb the present teacher-wage set-up.

The DIMMER VIEW

workers' wages and at the same time increasing dramatically welfare fund costs for these unfortunate people. This adds strong pressures to the inflationary movement.
If government becomes the catalyst between the worker and the product, it will occupy the place once set aside for profit. Workers will be gathered beneath the canopy of the state for care and feeding. Workers will be administered to by government and products will be made at government direction.
People who nurtured the free enterprise and profit systems for making our citizens the wealthiest in the history of mankind, will be replaced by faceless Georges, doing the bidding of a socialistic government administered by more faceless Georges.
Let there be no mistake about it . . . a socialistic U. S. is not the answer to a communist Russia.
Is the profit system really on the way out? The stock market, long a barometer of business prospects, has been in a depressed state since the steel ultimatum. Unfortunately, a falling market creates more tax income loss when the investor sells his securities.
All of these things are hastening the hour when profit may no longer be a proper motive.
Then the echo of Mr. K's boasts will become frighteningly meaningful.
